Background

How we got here...

- **POTUS / SECDEF directed effort; limited to a very small group**
- **Guidance:**
 - **Develop credible options to solve Iraq problem -- not the same as Afghanistan or Operation Desert Storm**
 - **Integrate / consider all elements of national power**
- **Thinking “outside the box”, but “inside a compartment”**
 - **Slices**
 - **Lines of Operation**
- **Military options developed...**
 - **“Generated Start” --- surprise, speed, shock & awe**
 - **“Running Start” -- respond to an Iraqi action initially... continue into war**
 - **Blue - White - Red -- revised “family of contingency plans”**

“Generated Start” Concept

- Execute a military option on our timeline - avoid tipping our hand
- Introduce SOF first - to set conditions; then attack on multiple lines of operation simultaneously
- Leverage “shock and awe” with Information Operations (IO) actions, themes and messages
- Structure deployment to build and maintain momentum
 - Coordinated flow of combat forces and enablers
 - Starting force sets conditions for decisive operations
- Enable a coordinated scheme of OGA preparation throughout initial deployment
- Deploy Northern Iraq Liaison Element (NILE) teams now to:
 - Build relationships
 - Gain intelligence and assist in targeting
 - Facilitate rapid introduction of SOF

Key Planning Assumptions -- Generated Start

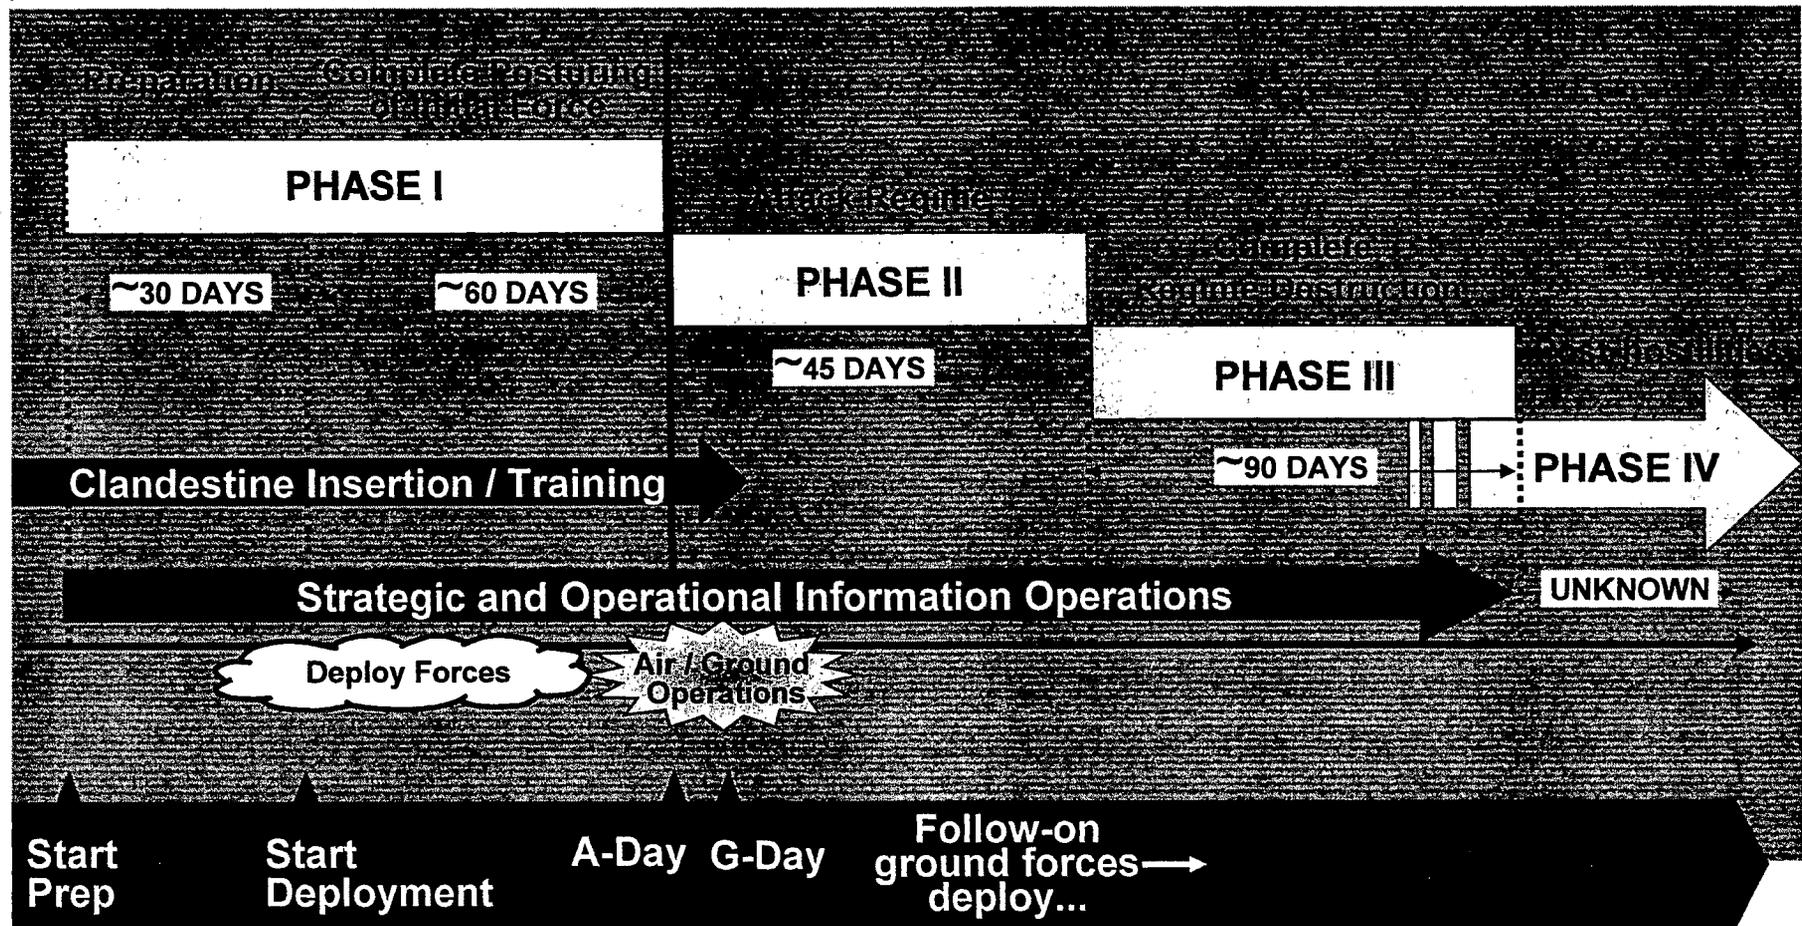

- This operation will be the national main effort
- Opposition groups will work with us
- Co-opted Iraqi units will occupy garrisons and not fight either US forces or other Iraqi units
- Regional states will not challenge US military operations with conventional forces
- DoS will promote creation of a broad-based, credible provisional government -- prior to D-day
- Continued freedom of navigation for shipping and naval forces through the Suez Canal / Straits of Hormuz / Northern Arabian Gulf
- Operations in Afghanistan transition to phase III (minimal air support over Afghanistan)
- BCT(-) in Kuwait replaced by a full-up brigade
- US forces in Turkey (ONW and all other units) TACON at N-Day; SOF in Turkey OPCON to CINCCENT at N-dav
- Iraqi regime has WMD capability

“Running Start” Concept...
We enter the warfight sequentially...
Air Power (Blue, White , Red) first, followed by
Ground Forces

“Running Start” Concept

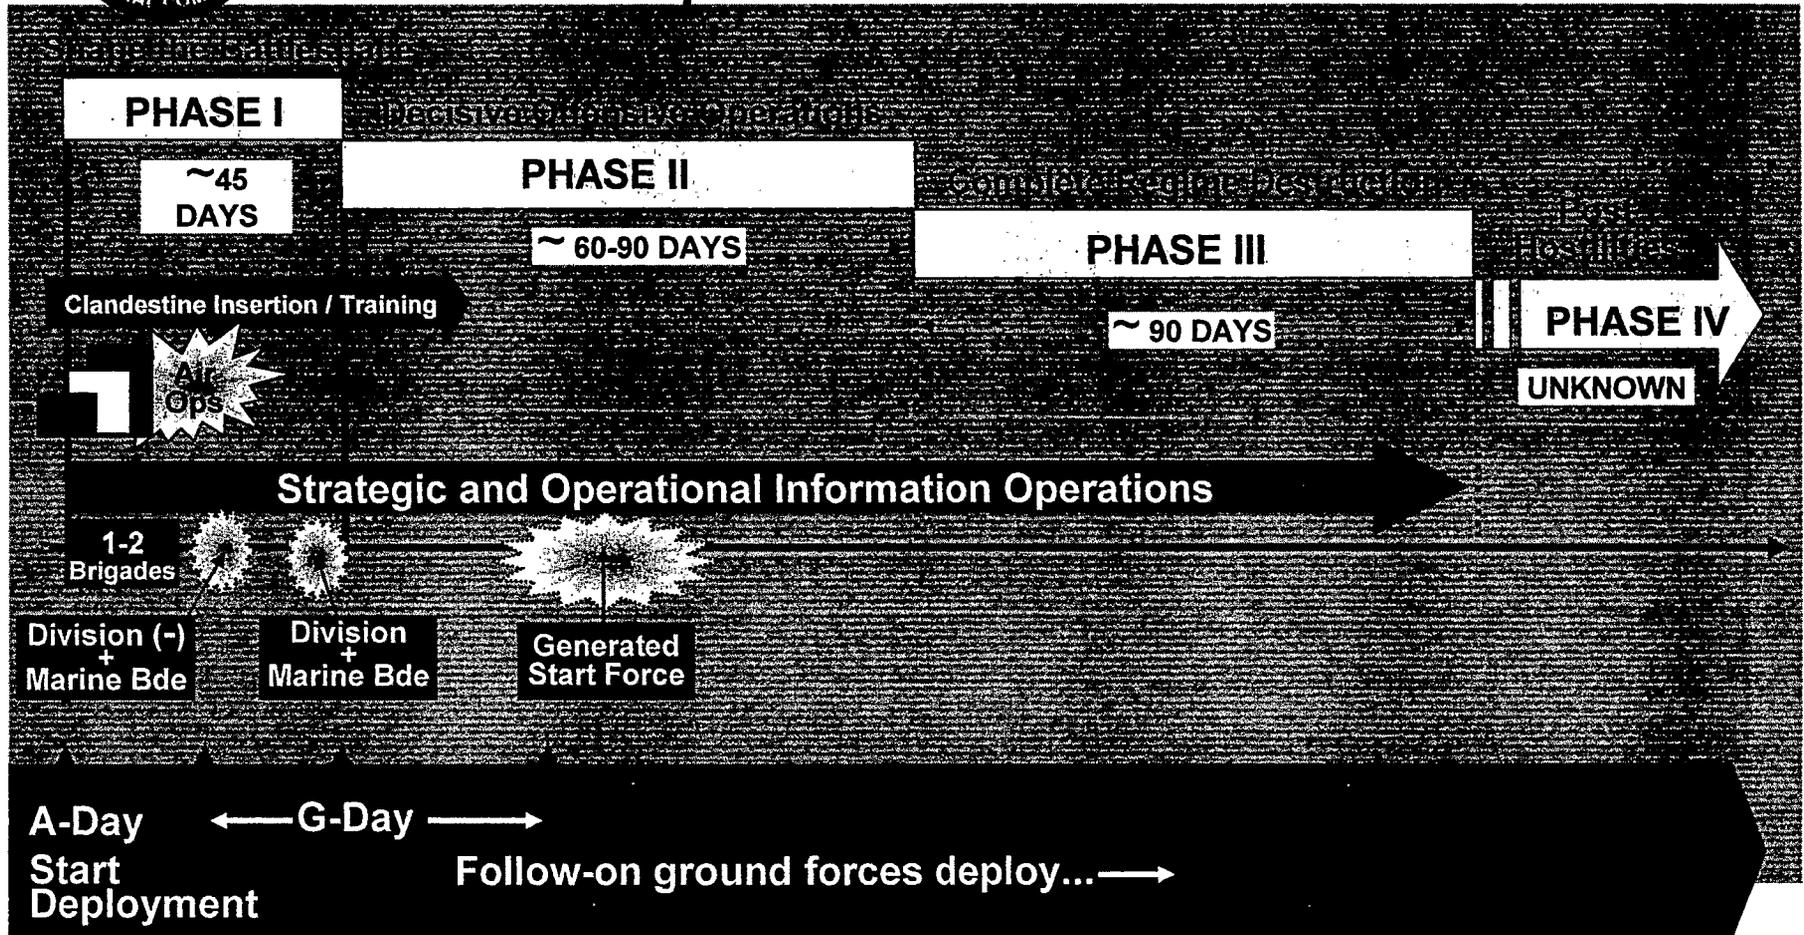

- **Execute a military option (Blue, White, Red) initially**
- **Introduce lines of operations sequentially**
- **Maximize effectiveness of operational fires with early introduction of SOF forces -- operational fires throughout deployment**
- **Focus Information Operation actions, themes and messages**
- **Tailor Phase II objectives based on effects of operational fires**
 - **Initiate ground operations (conventional and SOF) against intermediate objectives**
 - **Anticipate ground pause to generate more sustainment and combat power**
- **Flow follow-on forces to achieve Phase III and IV objectives**
- **Scale clandestine preparation to time available...**
 - **Deploy liaison teams (NILE) now to build relationships**
 - **Conduct “in-country” training and arming of Opposition Groups, as soon as possible after A-day**
